

Release Plan

Product Name: Service Center

Team Name: Service Center Team

Release Name: MVP Release 1.0

Release Date: Mar 11, 2025

Revision: 1.1

Revision Date: Mar 11, 2025

High Level Goals:

A description of the top-level goals for the release:

1. Create a functional marketplace where consumers can post service requests and providers can respond
2. Implement basic user authentication and profile management
3. Enable basic communication between consumers and service providers
4. Geolocation: Users can find people that are nearby them to complete a service.

User Stories:

Sprint 1:

[High] US1.1: As a recurring user, I want to be able to access and modify my profile. (points: 4)

[High] US1.2: As an amateur service provider, I want to be able to advertise my services.
(points: 8)

[High] US1.3: As a user I want to be able to create a public profile, so that other users know my skills and service history (points: 5)

[High] US1.4: As an amateur service provider, I want to know when someone interacts with my profile so I can respond in real time. (points: 8)

[High] US1.5: As a user, I want a homepage that lets me find everything I'm looking for so I don't have to search all over the site. (points: 4)

Sprint 2:

[High] US2.1: As a post author, I want to have a dedicated portal for my own posts so I can manage them. [9 points]

[High] US2.2: As a broke college student I want to find jobs so that I can make money doing peoples tasks [9 points]

[High] US2.3: As a specialist in my service, I want to be able to create a public profile, so that other users know my skills and service history [8 points]

[High] US2.4: As a forgetful user, if I change my login credentials, I can sign back in. (6 points)

[High] US2.5: As a small businessman I want to communicate with my clients so that I can stay on top of jobs(6 points)

Sprint 3

[Medium] US3.1: As a Homeowner I want to message the person I just hired to do a job so they know what I want them to accomplish and they can ask questions about the task [7 points]

[Medium] US3.2: As a consumer, I want to rate a service to let others know if it's worth paying for. [11 points]

[Medium] US3.3: As a user, I want to favorite or bookmark a service so that I can revisit it later [13 points]

[Medium] US3.4: As a Friendly Neighbor I want to find job postings that match my skills [6 points]

[Medium] US3.5: As a service provider, I want a profile with a skills section and if someone creates a post it pops up on their feed and they get notified [4 points]

Sprint 4

[Medium] US4.1: As a business owner I want my profile to be easily navigable so it displays all my important information to potential customers. [5 points]

[Medium] US4.2: As a professional painter I want to look at posts that my competitor has accepted so that I can be jealous. [6 points]

[High] US4.3: As a busy homeowner, I want to see more information about a post if it interests me so that I don't have to research posts I don't care about. [14 points]

[Medium] US4.4: As a job hopper, I want to gauge engagement of a post to see which ones I am more likely to be hired for. [7 points]

[High] US4.5: As a new user, after I register I want to be able to set up my profile so I can directly use the app. [8 points]

Capacity Sanity Check:

- Total Story Points: 148 points
- Sprint 1: 29 points
- Sprint 2: 38 points
- Sprint 3: 41 points
- Sprint 4: 40 points

Product Backlog:

- Create new type of post specifically for Service Providers
 - Current system assumes post maker is asking for a service
 - Create portal for Service Providers
- In app payment
- Filter by closed post, clear all filters button
- Send video messages
- Switch to a single Email system (currently using two systems)
 - Firebase emails
 - Sendgrid emails
 - Use a company account for Sendgrid, currently tied to a personal phone number
- Display newest rating on profile instead of oldest first

- Block user feature
- Authenticate email belongs to registered user
- Change reviews created on a user's profiles to reviews given by other users
