

Sprint 3 Report

Product: Service Center

Report Date: 2/25/2025

Team: Robert Agnvall (Product Owner)

Leo Ifrim

Alan Lam

Kevin Yue

Siya Bhadoria (Scrum Master)

Actions to stop doing:

Members should be wary of overwriting code when resolving pull requests, and try to avoid having too many pull requests go unresolved at once.

Actions to start doing:

The team should start doing a full check of the app functionality before pushing, ensuring that code does not interfere with pre-written components. Members should delete branches after features are merged with main, or if work on a branch has been moved to another one/abandoned. Members should ensure that file structure is adhered to, where instead of creating files in their own user folders, to create feature folders for new features. This makes it easier to find features in the code editor, and to keep track of what we have already written.

Actions to keep doing:

The team should continue reviewing other member's code to make sure everyone has a general understanding of new changes made. Meeting often has also been very helpful in keeping everyone up to date so the team would like to keep those up. Continuing to update and follow a figma is also important to ensure the features are catered to a user not the developer.

Work completed:

- As a consumer, I want to rate a service to let others know if it's worth paying for.
- As a Friendly Neighbor I want to find job postings that match my preferences
- As a service provider, I want a profile with a skills section

Work not completed:

- As a Homeowner I want to message the person I just hired to do a job so they know what I want them to accomplish and they can ask questions about the task
 - Task 5: Message should send a notification
- As a user, I want to favorite or bookmark a service so that I can revisit it later
 - Task 3: When creating a post a user should be able to add a price for a job
 - Task 4: Filter posts based on offered price and username
 - Task 6: Users should not put a price down so that service providers can set the price instead of the post creator

Work completion rate:

- Sprint 1 User Stories Completed: 4
- Sprint 1 Ideal work hours completed: 25 or 29
- Sprint 1 Ideal work hours: 2.9 hours per day
- Sprint 1 Work Days (1/15/24 - 1/28/24): 14
- 1 Story per 3.5 days
-
- Sprint 2 User Stories Completed: 4
- Sprint 2 Ideal work hours completed: 33 of 38
- Sprint 2 Ideal work hours: 2.7 hours per day
- Sprint 2 Work Days (1/29/24 - 2/11/24): 14
- 1 Story per 3.5 days
-
- Sprint 3 User Stories Completed: 3
- Sprint 3 Ideal work hours completed: 34 of 41
- Sprint 3 Ideal work hours: 2.9 hours per day
- Sprint 3 Work Days (2/12/25 - 2/25/24): 14
- 1 Story per 4.6 days
-
- Average user stories/day (completed): 3.8
- Average ideal work hours/day: 2.6
