

Sprint 4 Plan

Product Name: Service Center Team Name: Service Center Team Sprint Completion Date: February 8, 2025 Revision: 1.0 Revision Date: January 28, 2025

Goal

Complete flow of the application from logging in to getting a job.

User Stories and Tasks

US4.1: As a business owner I want my profile to be easily navigable so it displays all my important information to potential customers. (5 points)

- Task 1: Create horizontal posts view (hours: 2)
- Task 2: Strip postcard to be just the image and make them navigate to DetailedPostView (hours: 2)
- Task 3: Change post layout of ProfileView (hours: 1)

US4.2: As a professional painter I want to look at posts that my competitor has accepted so that I can be jealous. (6 points)

- Task 1: Improve minor aesthetic details, adding color matching, icons, hover animations (hours: 2)
- Task 2: Add filter to filter menu for job status, so that users can choose to filter out posts that have already been accepted (hours: 3)
- Task 3: add clear all button to reset all filter options (hours: 1)

US4.3: As a busy homeowner, I want to see more information about a post if it interests me so that I don't have to research posts I don't care about. (14 points)

- Task 1: Create a UI for getting/accepting a job. (hours 3)
- Task 2: Allow the ability to send messages from the post view. (hour 4)
- Task 3: The user can get a message when someone accepts their jobs. (hours 3)
- Task 4: Comments under posts. (hours 4)

US4.4: As a job hopper, I want to gauge engagement of a post to see which ones I am more likely to be hired for. (7 points)

- Task 1: Update backend for posts to add fields for likes, views, and price (hours: 3)
- Task 2: Add UI for liking (hours: 1)
- Task 3: Remove statics in ProfileView regarding post created count and review count, and remove statics from a post (hours: 3)

US4.5: As a new user, after I register I want to be able to set up my profile so I can directly use the app. (8 points)

- Task 1: Create a OnboardingView navigated to after Registration (hour: 2)
- Task 2: Create UI for welcome sign, ask for if you are a service provider, skills, and location input same as what's viewed in Settings (hour: 4)
- Task 3: Synch OnboardingView with settings (hour: 2)
