

Sprint 4 Report

Product: Service Center

Report Date: 3/9/2025

Team:

- Robert Agnvall (Product Owner)
 - Leo Ifrim
 - Alan Lam
 - Kevin Yue (Scrum Master)
 - Siya Bhadoria
-

Actions to Stop Doing

Members should avoid leaving tasks unfinished for too long, as this disrupts the development flow. Ensure that tasks assigned in the sprint planning phase are completed within the sprint timeframe. Minimize scope creep by keeping feature implementations within the original user story requirements. Members should also avoid rebasing their code in github as this leads to important code being deleted.

Actions to Start Doing

Perform more frequent UI/UX testing to catch design inconsistencies early. Improve documentation of API calls and database interactions to streamline backend/frontend communication. Prioritize and refine backlog items at the start of each sprint to prevent last-minute changes.

Actions to Keep Doing

Continue reviewing each other's code to maintain consistency and avoid redundant work. Maintain frequent standups and sync meetings to ensure all team members are aligned. Keep updating the Figma design to match implementation and ensure a smooth user experience.

Work Completed

- **US4.1:** As a business owner, I want my profile to be easily navigable so it displays all my important information to potential customers.
- **US4.2:** As a professional painter, I want to look at posts that my competitor has accepted so that I can be jealous.

- **US4.3:** As a busy homeowner, I want to see more information about a post if it interests me so that I don't have to research posts I don't care about.
- **US4.4:** As a job hopper, I want to gauge engagement of a post to see which ones I am more likely to be hired for.
- **US4.5:** As a new user, after I register, I want to be able to set up my profile so I can directly use the app.

Work Not Completed

- **US4.2:** As a professional painter, I want to look at posts that my competitor has accepted so that I can be jealous.
 - Task 2: Add filter to filter menu for job status, so that users can choose to filter out posts that have already been accepted
 - Task 3: add clear all button to reset all filter options
-

Work Completion Rate

- **Sprint 1 User Stories Completed:** 4
- **Sprint 1 Ideal Work Hours Completed:** 25 of 29
- **Sprint 1 Ideal Work Hours:** 2.9 hours per day
- **Sprint 1 Work Days (1/15/24 - 1/28/24):** 14
- **1 Story per 3.5 days**

- **Sprint 2 User Stories Completed:** 4
- **Sprint 2 Ideal Work Hours Completed:** 33 of 38
- **Sprint 2 Ideal Work Hours:** 2.7 hours per day
- **Sprint 2 Work Days (1/29/24 - 2/11/24):** 14
- **1 Story per 3.5 days**

- **Sprint 3 User Stories Completed:** 3
- **Sprint 3 Ideal Work Hours Completed:** 34 of 41
- **Sprint 3 Ideal Work Hours:** 2.9 hours per day
- **Sprint 3 Work Days (2/12/25 - 2/25/24):** 14
- **1 Story per 4.6 days**

- **Sprint 4 User Stories Completed:** 4
- **Sprint 4 Ideal Work Hours Completed:** 36 of 40
- **Sprint 4 Ideal Work Hours:** 2.8 hours per day
- **Sprint 4 Work Days (2/26/25 - 3/9/25):** 14
- **1 Story per 3.5 days**

- **Average User Stories/Day (Completed):** 3.73
- **Average Ideal Work Hours/Day:** 2.64
